REBELS DECLARED REPULSED IN THEIR MARCH UPON MADRID

CLAIMED REBELS NUMBER ING 100,000 RETREATED IN CONFUSION

By The Associated Press Fascist rebels were driven back with heavy losses today during an attempted march on Madrid, the leftist Spanish government announced.

In a battle which observ ers said might prove decisive in Spain's bloody week-old civil war, the government re-ported loyal troops pushed back the insurgents about nine miles in the region region of Somo Sierra

General Emilio Mola, the rebel commander, was reported to have retired in confusion, cutting telephone and telegraph wires. Some reports numbered the rebels at 100,000 and loyalists at 36,000.

at 36,000.

The British destroyer Whitehall routed a rebel plane with
gunfire in Tangier harbor after
the aircraft had bombarded a
British ship carrying fuel oil to
loyal Spanish cruisers.

Another British destroyer, the
Wild Swan, fired a "warning"
shot off Tarifa, Spain, after a
rebel plane dropped bombs nearby.

In addition to reporting the rebel retreat near Burgos, the government said loyal forces were pushing steadily toward Zaragoza, rebel stronghold; Segovia and Sal-amanca in the North, and toward Casares, Seville, Albacete, Cadiz, and Algeciras, insurgent rallying rounts in the south

and Algedras, insurgent rallying points in the south.

Expect Victory.

A Ploneer of Death.

In that early church in Jerusalem, every aspect of which is of absorbing interest, the Spirit of Jesus was so powerful that even in unexpected places we find heroism like His own. Stephen, for instance, was not an apostle, but a deacon, devoted to the secularities of the church, with which the apostles could not take time to concern themsleves. He may be called one of the church's laymen, a business man. Yet what prophet could match him in spiritual qualities? Certainly, the highbrows from Cyrene and Alexandria and Cilicia (Acts 6:9, 10) were no match for him. Stephen's address in his own defense, after his arrest, is nim. Stephen's address in his own defense, after his arrest, is one of the longest and best in the New Testament.

Of course, Stephen had been arrested. Enemies of truth al-

When religion resorts to the secular arm it is a sign that she is spiritually weak. All through the ages there has been this turning to the jail, torture and death for those whose ideas were disapproved by the prevailing party, in church and state. Stephen was the first victim of this spirit in the Christian era. He was a ploneer of death, for faith's sake, in direct succession to his Lord. The driver of a news reel truck from Burgos, Spain, reported today in 100,000 fascist rebels had stated a march on Madrid at daylight.

The driver said the rebels were converging from two sides in the region of Burgos, which is approximately 150 miles north of Madrid.

One column, he added, was coming from near Aranda.

Aranda is in the mountainous region of Zaragoza province, southeast of the province of Burgos.

CURBED PRESS

There is nothing very unusual in the action taken against the editor of a newspaper in Warsaw by the Polish government. That is, nothing unusual for Europe. The editor was fined for printing remarks about Adolf Hitler which the Polish government and courts regarded as "offensive to the chief of another state.' It seems drastic, though, to Americans.

What would happen in this country if newspaper editors were treated similarly for saying what they have said many a time in tator? Thousands would be fined and jailed.

AAA PLANS RANCH **SOIL CONSERVATION** PROGRAM FOR WEST

WASHINGTON, July 21.—(P)—The AAA, officials said today, hopes shortly to submit to ranches a soil conservation program for the vast grazing large of the west.

of the west.

Work is under way on a tentative plan and officials say they desire to have a program adopted by this fall so ranchers will have time during the winter to adjust their grazing areas.

Two major moves are being studied by the planners: 1. To arrange for ranchers to increase their supplemental feed crops to

their supplemental feed crops to relieve the drain upon pasturage lands: 2. To encourage ranchers to begin grazing livestock later in the spring that at present and to take the livestock off the range earlier in the fall to con-

serve the grass.

The plan, it is understood, does not contemplate calling upon catle and sheep raisers to reduce the number of their livestock. It the number of their livestock. It is believed increases in supplemental feed crops will go far toward conserving the grazing lands. Participation in the program would be voluntary, with the government offering as an inducement certain cash payments to those planting feed crops. No specific figures on these payments are being made public yet.

Assisted By Records.

In working out their plan, AAA officials have been assisted by records of the forest service as to the various areas of grazing land and the number of livestock on these ranges. On the

RADIO PRIEST. HOWEVER. FEELS ROOSEVELT SHOULD BE SUPPLANTED

DETROIT, July 23.—(R)—An apology from the Rev. Father Charles E. Coughlin to President Roosevelt for the use of the word "liar" he used in a reference to the President in a recent Cleveland address will appear in the periodical "Social Justice" tomorrow.

the priest highly respected Presifor the Roosevelt, "I deem it best for the welfare of our common country that you be supplanted in office."

Addressed to "Your Excellency," the statement reads in part:

"In the heat of civic interests in the affairs of my country and in righteous anger at the developments that, it is my conviction, have contributed largely to want in the midst of plenty, I addressed to the President of the United States in a speech at Cleveland, Ohio, July 16, the word 'liar.'

"For that action I now offer to the President of the United States by sincere apologies."

Continuing, the statement said. "I was one of the first and not one of the least, to help you stain the presidency. My assistance was based upon Your Excellency's ability to perform. As my president, I still respect you: as a fellow citizen and men I still regard you highly, but as an executive despite your excellency's fine intentions, I deem it best for the welfare of our common country that you be supplanted in office."

Income from the gasoline tax in the current year exceeded by \$8,571,276 receipts for the first 11 ing. In the current year exceeded by \$8,571,276 receipts for the first 11 months of the preceding year. The department estimated that total collections this year would exceed by \$4,000,000 those of last year, boosting the 12-month total to about \$41,150,000.

Collections through July 22 exceeded by \$191,000 the previous peak month of August, 1935. Much of the increase was attributed to heavier motor traffic incident to the Texas-Centennial.

July collections represented taxes on 97,295,196 gallons of gasoline, a daily average of 4,-422,509 gallons.

Although nine days remained to complete July receipts, the department said collections exceeded by \$300,000 receipts for all of June.

Million Tuesday

DALLAS, July 22.—(P)—An average of more than 43,000 visitors each day since the opening, June 6, has put the Texas Centennial exposition well on the way to its third million.

A blue-eyed sophomore coed from the University of California as Los Angeles, Miss Luella Lee Weaver, stepped through the gates yesterday afternoon and became the two-millionth visitor. As such, she was presented a pass two feet by one foot in size giving here entere to every show on the grounds.

At midnight the attendance climbed to 2,014,290, the day's total being 34,824.

Extra workers busled themselves removing the last traces of the storm which struck the exposition Monday night.

Today was dedicated to Weslaco.

Noble Cook Replies to Luther

Johnson has made in this district he would have one not well acquainted with politics believe he has been personally responsible for a great many things. After he has impressed his crowd he has impressed his crowd with how much he has done for our president (who incidentally did not mention his name among the many others that he did mention on his trip to Texas) and the veterans he casually ventures out on that shaky record of his. He states that the farmers of these eight counties have

He states that the farmers of these eight counties have received twenty-two million dollars. Now let me ask you small farmers, which, by the way, include the great majority of our farmers, who are tenants, this question: How much of that twenty-two million did you receive? No need to go into the answer, it is self evident. dent.
Why Isn't Luther Johnson

Why Isn't Luther Johnson on Agricultural Committee?
Then he makes an attempt to justify his present standing on the FOREIGN AFFAIRS COMMITTEE. He states his promotion was determined by seniority, and that after being there fourteen years he was just ready to be appointed on the agricultural committee.

Let me give you this in-

Of the two from Texas the second ranking member of that committee is Richard Kleberg from Corpus Christi, who has been there only five years. My friends it is very who has been there only five years. My friends it is very apparent that the seniority rule does not apply, but is based upon ability and recognition. This is one of the largest agricultural districts, as far as production is concerned, that there is in the Southwest. This district has the largest agricultural college there is in the United States, A. and M. at College Station. And this would make it his foremost business to serve the agricultural interests of his district instead of dabbling with foreign affairs, of which very few of this district are concerned.

foreign affairs, of which very few of this district are concerned.

Who was he representing?

Now let's see how he has represented the people. Last July when the Wheeler-Rayburn bill (a bill designed to give the death blow to holding companies, those little inside companies that are formed to evade federal laws) came up there was in Washington a boyhood friend of my opponent, who is now president of the Texas Power and Light Company. When the vote came up my opponent was with the twenty-eight congressmen "either not voting or unaccounted for." On May 11, 1936, he was with those congressmen who voted aggingt the "Faviers Jenke" 11, 1936, he was with those congressmen who voted against the Frazier-Lemke bill, which attempted to grant loans to the farmers at one and one-half per zent. Could it have been on account of the money interests objecting?

And still he claims to be the friend of the farmers. As far as correspondence is concerned he is the farmers' Santa Claus, but how else?

What Was The Delay?

For your own thought I would like to submit this information. On March 12, 1924, a bill (H. R. 7848) to provide for the erection of a post office building at Groesbeck, Texas, was introduced, but it was not granted until I announced for Congress from this county sent the latest terms.

granted until I announced for Congress from this coun-ty some twelve years later. Reports coming to me in the other counties stated that my only opposition is in my home county. My friends, you know the ones who are putting out such propaganda, and I for one am not ready to believe that the people are going to be incluenced by political machines and bosses."

Hope of Finding Ship Alive Fades

aboard the British motorship
Nunoca faded today with the
discovery of traces of a ship's
cargo nearly 100 miles from the
missing vessel's course.

Coast guardsmen found a charred piece of timber fastened to
an oil drum which they said
strengthened the belief that the
Nunoca was shattered by an explosion.

The ship has not been heard
from since she set out July 4,
from Grand Canyon Island for
Tampa under command of Captain Mosee I Kirkconnell.

Captain Cecil M. Gabbett, divisional coast guard commander
directing an extensive hunt for
the 110-foot craft, said he was informed by the American consul
at Georgetown, Grand Cayma,
the Nunoca loaded 60 Texas oil
containers in its hold before leaving. The drum picked up was hip's

SOME OLD-FASHIONED FORMULAS

NEW-OLD FORMULAS
Today Miss Forbes gives
you various interesting formulas which you can make up
for yourself if you want to.
One is a black mascara for
your eye-lashes.

It might be interesting for you to know how certain effects and colors are gained in modern cosmetics. The greater your

knowledge casier it will for you to m up cosmetics yourself, and so to j u d whether or t h e formulas, cosme

formulas, when they are published, are any good. So today I will quote a E. E. Forbes bit from an old-fashioned book which contains a lot of standard formulas.

which contains a lot of standard formulas.

In the old days, pomades and creams were colored red by infusing a little alkanet into the grease, yellow by using annotto, and a delicious green was obtained by chlorophyll. How often this masqueraded as cucumber it is impossible to estimate, but I remember a rage some years ago for green cucumber creams and lotions. Presently I will tell you how to make a real one.

In making theatrical grease paint, a good sun-tan yellow is obtained with ochre, bronze by using varying amounts of burnt umber, blue with ultramarine. Should you want to try your hand at grease paint, mix a little of any color you wish with an equal amount of precipitated chalk. Then dilute with oxide of zine until you have the required tint. To make it into the convenient stick shape, mix it with warm mutton suet and roll in waxed paper or tinfoil. To make a grease paint cream, use vaseline instead. If the mixture is not sufficiently opaque, add a little more precipitated chalk. Should you want to try a black. Should you want to try a black-face makeup, the formula is sim-

a little more precipitated chalk. Should you want to try a black-face makeup, the formula is simple. You want one-half ounce of soot, mixed with one-half ounce of almond oil, added to one and a half ounces cooca butter, heated enough to melt adm blend with the oil. All black mascaras, whether for coloring the eyelashes or for theatrical use, are made with lamp black and cocoa

tutter. The lamp black you obtain by letting a lamp smoke or holding a candle under a glass.

AMERICAN FOREIGN TRADE BALANCE ON WRONG SIDE IN JUNE

EXPORTS EXCEEDED BY IM-PORTS BY OVER SEVEN **MILLION DOLLARS**

WASHINGTON, July 22.—(P)—
Preliminary foreign trade figures for June, issued by the commerce department today, said imports totalled \$192,233,000 and exceeded exports by \$7,045,000.

A trend of foreign trade volume higher than last year continued in June, the department reported, exports for the month being 9 per cent greater in value than in June, 1935, and imports 23 per cent higher.

The figures, subject to revision, showed that exports gained 13 per cent and imports 17 per cent in value during the first six months of this year compared with the corresponding 1935 period.

The \$192,233,000 of June imports

manufactured wool and wool manufactures, lumber, nickel and

manufactures, lumber, nickel and tin.

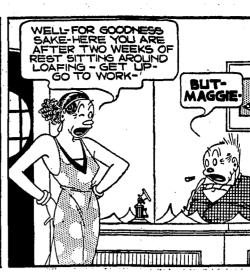

One of the largest declines in the export column was listed for unmanufactured cotton, which the department attributed principally to a sharp drop in Russian and Italian demand.
